My Articles

📄 149   👤 Gurjeet Kaur   📅 August 24, 2017   📁 Articles   👁 5541   💬 0

Users can expand "**My Articles**" link under **Articles** section of left navigation bar to view their own articles to update them. 'My Articles' page will be displayed which contain several columns as shown in the figure below:

ID: This column displays unique serial ID of the article in the knowledge base.

Title: This column displays the title of an article in the knowledge base. You can click on article title to preview the article contents.

Category: This column displays categories under which article is posted. Superusers and editors can click on the category name to view its details. **Multiple** is displayed if the article is posted under more than one category.

Location: This column displays the location or status of the article in the knowledge base, i.e, whether the article is pending, approved, disapproved, featured or expired.

Updated: This column displays the date on which the article was last updated.

Actions: This column displays a drop-down list of actions that can be performed on the article. These actions are:

   Edit - Click to modify the article.

   Delete - Click to delete the selected article. The deleted article is sent to 'Trash Box' section which behaves similarly to Recycle Bin.

   Attachments - Click to add or delete an attachment in the selected article.

   Disapprove - Superusers or editors can click this to disapprove the article.

   Mark Featured - Superusers or editors can click this to make this article featured.

   Reset rating - Superusers or editors can click this to set the rating of an article to 0.

   Subscribers - Superusers or editors can click this to view the list of subscribers associated with this article.

   Revisions - Superusers or editors can click this to view the old versions or revisions of the corresponding article.

   Collaboration - Superusers or editors can click post notes on articles for other admin users.

You can click on sorting icon (⬍) to sort the articles in ascending or descending order accordingly. You can also select the no. of entries (articles) to be displayed at one time in show entries field.

"**Select Bulk Action**" allows you to perform the same function on more than one article. For this, you need to mark the articles on which operation is required and then select a function from a drop-down list of actions. At last, click on "**Apply**" button.
